

SIVYER STEEL ENVIRONMENTAL POLICY

Sivyer Steel is committed to managing environmental matters as an integral part of our business planning strategy to the following principles:

- We will comply with applicable laws and regulations by implementing an environmental program to ensure compliance with legal requirements.*
- We are committed to pollution prevention and the continual improvement of our environmental performance.*
- We will employ a documented management program designed to prevent activities and/or conditions that pose a threat to the environment and we will work to minimize our Impact on the environment.*
- We will communicate our commitment to our environmental performance to our employees, vendors, customers and shareholders.*
- We will seek opportunities to demonstrate continuous improvement in our environmental performance.*
